FEDERAL COMMUNICATIONS COMMISSION

CURRENT AMI CONSTRUCTION AND OPERATING COSTS

QUESTIONNAIRE TO NEW STATIOUS.

APRIL 14, 1947.

Considerable interest has been shown by construction permit holders and applicants in the current cost of entering the standard broadcast industry and in the average revenues and expenses of new AM stations. A substantial number of AM stations have gone on the air since VJ-Day, and their experience offers a basis for making a realistic appraisal of the present situation with respect to these facts.

Accordingly, the Commission is mailing to each station authorized since October 8, 1945, a one-page questionnaire asking information on actual construction costs and monthly expenses and revenues. It is hoped that these reports will be returned to the Commission on or hefore April 30.

When study of these reports is completed, the over-all results will be made public, but individual station data will not be disclosed.

MUNICIPAL POLICE VHF RADIO CHARRELS
APRIL 17, 1947.

Frequency service-allocation reports for the non-government fixed and mobile services operating in the 30-40 Mc, 72-76 Mc and 152-162 Mc bands (Docket No. 6651) have been adopted and related public notices released (Nos. 3523, 95684 and 3544). Since a majority of the presently available equipment is not capable of adjacent channel operation, normally only alternate channels will be assigned at the present time. The attached list contains a summary of such alternate VHF channels available for assignment to municipal police radio stations.

Fending revision of Fart 10 of the Commission's rules and regulations, certain of the alternate channels have been tentatively designated as "land" or "mobile" to aid in the proper selection of channels. Channels designated "mobile" are for assignment to mobile units exclusively. Channels designated "land" are primarily for assignment to land stations, but may also be assigned to mobile units associated with land stations operating on the specific channel.

In order to expedite the handling of applications, it is suggested that in areas where frequency assignment groups are organized each request for a new frequency or a change of frequency be accompanied by a statement from the appropriate state or area frequency assignment group indicating approval of the frequency requested.

[Docket No: IT-6057]

DEEPWATER LIGHT AND POWER CO. AND DEEPWATER OPERATING CO.

ORDER INSTITUTING INVESTIGATION

It appears to the Commission that:

(a) Deepwater Light and Power Company ("Power Company") and Atlantic City Electric Company are joint owners of Deepwater Generating Station located in Lower Penns Neck Township, New Jersey. Pursuant to an agreement executed January 3, 1933, by and between Power Company and Atlantic City Electric Company as joint owners, and Deepwater Operating Company ("Operating Company") Deepwater Generating Station is operated by Operating Company. Under said agreement each of the owners is entitled to 50% of the entire output of the generating station, after supplying the requirements of E. I. du Pont de Nemours & Company, and either owner is entitled to the unused capacity of the other owner.

(b) Under an agreement dated February 1, 1933, Power Company sells its entire entitlement of electric energy from Deepwater Generating Station to Philadelphia Electric Company. The energy so sold is generated in New Jersey and transmitted and consumed in Pennsylvania by means of facilities, among others, owned or operated, by Deepwater Light and Power Company and Deepwater Operating Company. Such a sale

is a sale of electric energy at wholesale in interstate commerce, and Deepwater Light and Power Company and Deepwater Operating Company are therefore "public utilities" within the meaning of the Federal Power Act.

(c) Pursuant to the aforesaid agreement of February 1, 1933, designated in the files of the Commission as Deepwater Light and Power Company Rate Schedule FPC No. 1 and Philadelphia Electric Company Rate Schedule FPC No. 3, Philadelphia Electric Company through "cost of service" payments for the energy it purchases, virtually guarantees Power Company a return of approximately 7% on the latter's undepreciated investment.

The Commission finds that:

(1) It is necessary and proper in the public interest, and to aid in the enforcement of the provisions of the Federal Power Act, that an investigation be instituted by the Commission into and concerning any rate, charge, or classification, demanded, observed, charged or collected by Deepwater Light and Power Company or Deepwater Operating Company for or in connection with the sale of electric power and energy to Philadelphia Electric Company under Deepwater Light and Power Company Rate Schedule FPC No. 1, and any rule, regulation, practice or contract affecting such rate, charge or classification.

(2) It is necessary and proper in the public interest, and to aid in the enforcement of the provisions of the Federal Power Act, that an investigation be instituted by the Commission into and concerning all other rates, charges, or classifications demanded, observed, charged or collected by Deepwater Light and Power Company or Deepwater Operating Company for or in connection with any transmission or sale of electric energy subject to the jurisdiction of the Commission, and any rules, regulations, practices, or contracts affecting such rates, charges, or classifications.

The Commission orders that:

An investigation be and it hereby is instituted for the purpose of enabling the Commission:

(A) To determine whether any rate, charge, or classification demanded, observed, charged, or collected by Deepwater Light and Power Company or Deepwater Operating Company for or in connection with the sale of electric power and energy to Philadelphia Electric Company under Deepwater Light and Power Company Rate Schedule FPC No. 1, or any rule, regulation, practice, or contract affecting such rate, charge or classification, is unjust, unreasonable, unduly discriminatory or preferential;

(B) To determine whether in connection with any transmission or sale of electric energy subject to the jurisdiction of this Commission under the Federal Power Act, by Deepwater Light and Power Company or Deepwater Operating Company, any rates, charges, classifications demanded, observed, charged, or collected, or any rules, regulations, practices or contracts affecting such rates, charges, or classifications, are unjust, unreasonable, unduly discriminatory or preferential; and

0

(C) If, after hearing, it shall find that any of such rates, charges, classifications, rules, regulations, practices or contracts are unjust, unreasonable, unduly discriminatory, or preferential, to determine and fix by appropriate order or orders, just and reasonable rates, charges, classifications, rules, regulations, practices, or contracts to be thereafter observed and in force.

EXPRESS EARNINGS, PLAN AND METHOD OF DIVISION

At a general session of the Interstate Commerce Commission held at its office in Washington, D. C., on the 22d day of April A. D. 1947.

It appearing, that upon application under section 5 (1) of the Interstate Commerce Act and after hearing, the Commission authorized the grouping of carriers and division of express earnings, in accordance with the terms of Article V of the Standard Express Agreement, set forth at pages 437–441, "Securities and Acquisition of Control of Railway Express Agency," 150 I. C. C. 422

Section 4 of Article V of the Agreement mentioned provides:

The balance * * * designated as "Rail Transportation Revenue" shall be distributed among the carriers in the group excuting this form of agreement * * * in the proportion that the gross express transportation revenues on other than carload business for the month earned on the line of each such carrier bears to the gross express transportation revenues on other than carload business earned on the lines of all such carriers in that group for that month; * * *

It further appearing, that upon the averment of the Railway Express Agency, Incorporated, that the cost of accounting on a monthly basis was excessive and reduced the express privilege payments by about \$4,000,000 per annum, the Railway Express Agency, Incorporated, proposed to the rail carriers that apportionment be made on the basis of percentages arrived at by using the results of a test year; and that by separate supplemental agreement in 1938, substantially all the carriers agreed to the revised plan and it became effective July 1, 1938. The specific terms of the agreement are set forth in Appendix C to the report in Ex Parte No. 163, "Increased Express Rates and Charges, 1946," 266 I. C. C. 369;

was not submitted to the Commission for its approval, and has not been approved;

And it further appearing, that by petition dated December 10, 1946, the Railway Express Agency, Incorporated, requests that the Commission find that the revised plan for distributing express revenues does not require additional approval under section 5 (1) of the act; and that should the Commission determine that its approval is necessary, the Railway Express Agency, Incorporated, requests that the Commission approve and authorize such plan;

It is ordered, That a proceeding of investigation and inquiry be, and it is hereby instituted by the Commission on its own motion, under the provisions of the Interstate Commerce Act, sections 5 (1) and 15, as amended, into and concerning the present practice of the Railway Express Agency, Incorporated, in the pooling and distribution of express revenues, with the view of determining whether such practices are just and reasonable and otherwise conform to the requirements of the act; and if such practices or any of them shall be found to be unjust and unreasonable or to otherwise depart from the requirements of the act, with a view to determining and prescribing just and reasonable and lawful practices:

It is further ordered, That the Railway Express Agency, Incorporated, and all of the carriers parties to the existing pooling arrangement be, and they are hereby, made respondents in this proceeding, that a copy of this order be served upon them, and also served upon the parties in "Securities and Acquisition of Control of Railway Express Agency," supra, and "Increased Express Rates and Charges," 1946, supra; and that notice of this proceeding be given to the public by depositing a copy of this order in the Office of the Secretary of the Commission, at Washington, D. The Commission having by order dated April 11, 1947, granted and permitted to become effective said applications and declarations subject to the condition that the proposed issuance and sale of bonds should not be consummated until the results of compatitive bidding pursuant to Rule U-50 shall have been made a matter of record in this proceeding and a further order shall have been entered by the Commission in the light of the record so completed; and
